Crab, Shrimp & Scallops

400–700 series • not kosher

The premium shellfish range — the most theatrical items on any menu and the strongest margin lines in the book. **Kosher note:** only finfish with fins and scales are kosher, so this entire page serves the Mexico market only; an Israel kosher program runs on the salmon, halibut, cod and pollock pages. We quote and ship the two lanes independently.

Custom & Value-Added

700 series • built to your spec

Raw material is where we start, not where we finish. Every finfish line can be cut, packed, coated, cured or branded to your exact specification — so what lands at your door is ready for your kitchen, your case, or your shelf.

Portion Control

Fixed-weight portions cut to your tolerance — 4, 6, 8 oz or custom. Consistent plate cost, zero trim waste, and no butchering labour in your kitchen.

Options: skin-on or off • PBO • vacuum-sealed singles • layer-packed

Retail & Private Label

Your brand on the box. Retail-ready packs with your artwork, market-compliant labeling, barcodes and nutrition panels — built for Mexico NOM or Israeli requirements.

Options: vac-pack • skin-pack • printed cartons • multi-language

Smoked & Cured

Cold-smoked, hot-smoked, and cured programs on salmon and sablefish — sliced and interleaved, or whole side, to your cure and smoke profile.

Options: cold or hot smoke • sliced D-cut • whole side • custom cure

Coated & Prepared

Breaded, battered, marinated or seasoned to your recipe — built on pollock and cod for foodservice volume, or premium species for retail.

Options: panko • beer batter • seasoned • par-fried • raw-coated

Tell us the finished product. We will build the spec backwards.

Give us the cut, the pack, the count per case and the label — we source the raw material to match and quote the finished item delivered. Minimums apply by program; most custom runs start at one container.
